Undercounter Dishwashers

Our technologically advanced FX and PREMAX FP undercounter dishwashers take warewashing technology to a new dimension. They are easy to use, energy efficient and give consistently outstanding wash results.

| Product | Description |
|-------------------|---|
| PROFI FX Series | The PROFI model for reliable and simple washing of tableware, cutlery and glasses. Ideally suited for use in restaurants, bistros and cafés. The PROFI model with the XL depth of the chamber cleans baking trays and meat trays with no trouble. This makes it the ideal partner for bakers, butchers and fast food outlets. |
| PROFI FXTD Series | Wherever a high degree of hygiene is required the HOBART FXSTD thermal disinfection dishwasher is the ideal solution. Unlike conventional machines, the FXSTD uses steam as the disinfection agent. The temperature is transmitted to the wash ware better and more efficiently through steam, as opposed to water. This guarantees the required disinfection result. |
| PREMAX FP Series | The premium model with integrated drying provides a perfect drying result. With a water consumption of just 1.0 litre, the PREMAX FP is the most economical undercounter dishwasher on the market. It is also the only undercounter dishwasher that can use hot waste steam to manage extremely high levels of soil deposits on wash ware. |

Utensil Washers

Designed to deliver the highest standards of hygiene and cleanliness, pots, pans, containers, trays and utensils can be washed, rinsed and sanitised in just minutes – efficiently and cost effectively.

| Product | Description |
|--------------------|---|
| PROFI UX Series | Cleans pots and pans, cast iron cookware, baking tins, trays and racks with perfect wash results. Only HOBART can wash 4 bakery racks in one wash cycle. |
| PROFI UXT Series | The right model for a large wash capacity. The PROFI UXT model offers double the capacity compared to the PROFI UX and can wash 6 bakery racks at once. |
| PROFI UXTH Series | The hood model makes it easier to load and unload the machine. The guide rail system makes emptying the machine a comfortable and ergonomic process. |
| PROFI UXTLH Series | The above average insert height of the PROFI UXTLH offers plenty of space, increases the capacity per wash cycle, especially in the case of baking tins and bakery racks and is therefore ideal for use in bakeries. |
| PREMAX UP Series | The only utensil washer with a lateral wash system. Compared to other models, this enables the PREMAX UP to offer triple the capacity in the same space. Innovative and efficient cleaning systems ensure a perfect wash result with significantly less manual pre-washing. |
| PREMAX UPT Series | The PREMAX UPT offers all the advantages of the PREMAX UP combined with double the capacity compared to a conventional twin rack utensil washer. |

Flight Type Dishwashers

The FTNi and FTPi Series set the highest industry standards in flight type warewashing, and its advanced modular design offers unlimited design solutions.

| Product | Description |
|------------|--|
| FTN Series | Flight-type dishwashers are intended for fast cleaning of large quantities of wash ware items. For these dishwashers, it is particularly important that the two factors, footprint and efficiency are well balanced. HOBART has a solution for this challenge that meets all the specific demands of flight-type dishwashers in everyday practical use: the unique, innovative twinLINE dishwashing organising system. |

Warewashing Machines - Installation

A range of options to suit your needs.

Rack & Flight Type Warewashing Machines

Installation costs associated with large warewashing systems are available upon application. This is due to the bespoke nature of these systems which are tailored to suit individual customer requirements.

Water Condition

Hobart UK cannot be held responsible for the quality of your water supply and always recommends the use of water softeners or water conditioners at all times. Scale related damage is not covered under your warranty.

Notes on Installations

- Prices are for connection to suitable isolated services within one metre of the appliance on a clear site, during normal working hours (09:00 – 17:00 Mon to Fri).
- The standard price includes final commissioning at the time of install provided all services are available. If separate commissioning is required at a later date, then a separate chargeable call must be logged with the service department.
- Work scheduled outside of normal working hours (09:00 – 17:00 Mon to Fri) is subject to a quotation.
- Installation of two or more machines to the same site on the same day is subject to a 10% discount.
- In cases where access is difficult, it may be necessary to employ the services of a specialist handling company. Any additional costs incurred will be chargeable to the customer.
- A cancellation charge will be incurred at the following rate for abortive installations:
24 Hours Before - 25% of Install Cost

Mixing Machines

Hobart's name has been synonymous with mixers for decades. World famous for producing market leading, easy-to-use machines, saving caterers' time and delivering consistent and efficient results – there's a mixer to suit every need.

| Product | Description |
|-------------|---|
| N50 Series | The portable N50 is ideal for a small kitchen operation, or where smaller quantities are being mixed on a regular basis. |
| HSM Series | The Hobart HSM Series offers 4 revolutionary mixers with enhanced anti-corrosion features. No longer will water and cleaning chemicals corrode the legs and body of your mixer. The rods and shafts are also tufftrided for longevity. The Hobart HSM mixers have a range of bowl adaptors which allows the operator to interchange bowls and attachments to suit the specific operation at the time. |
| A200 Series | The A200 is probably the most versatile mixer on the market. With its 20 litre capacity and 3 speed gearbox it is large enough to cope with most customers' requirements, but still compact enough to fit into the smallest of spaces. An added benefit to the A200 is that it is available as a floor standing or bench mounted version and can be supplied with a 10 litre adaptor kit to make it even more versatile when mixing smaller quantities. |
| H Series | Hobart's heavy duty floor standing mixers are legendary for their strength and longevity. With 60, 80 and 140 litre versions there is a mixer for every large scale production operation. All the heavy duty mixers have an NVR safety guard and an extensive list of optional accessories. |

HOBART

Food Processors

Our range of food processing equipment is designed and manufactured to the highest specification to ensure durability and safety at all times.

| Product | Description |
|----------------|---|
| Food Processor | Our Food Processor ensures short preparation times which in turn means minimum temperature increase, especially important in the preparation of meat products and less separation of fats and oils. This is a fast, efficient product giving consistently excellent results. |
| Combi Cutter | The CC34 Combi Cutter is a high output machine giving the constant performance demanded by busy kitchens. It encompasses all the features and benefits of the much acclaimed Hobart Vegetable Preparation Unit and the Hobart Food Processing machine into a single multi-purpose unit. |
| Blender | The versatile CB4-10 Blender has a 4 litre capacity and is capable of most applications. Blending soups and smoothies, mixing fruit juices, cocktails or milkshakes and even preparing pastes, batters and dressings. Manufactured to the highest specification this exceptional blender can do it all. |

Food Preparation - Installation

A range of options to suit your needs.

| Installation | Description | Price (Exc VAT) |
|------------------|---|-----------------|
| Machines | Small Mixers up to 20 Ltr | £260 |
| Machines | Medium Mixers 30 - 40 Ltr | £350 |
| Machines | Large Mixers Over 40 Ltr | £550 |
| Machines | Portable Food Processors, VPU's and Slicers | £150 |
| Machines | Potato Peelers | £285 |
| Additional Works | Disconnection of Existing Machine Leaving on Site | £85 |
| Additional Works | Removal of Disconnected Machine from Site | £105 |

Notes on Installations

- Prices are for connection to suitable isolated services within one metre of the appliance on a clear site, during normal working hours (09:00 – 17:00 Mon – Fri).
- The standard price includes final commissioning at the time of install provided all services are available. If separate commissioning is required at a later date, then a separate chargeable call must be logged with the service department.
- Work scheduled outside of normal working hours (09:00 – 17:00 Mon to Fri) is subject to a quotation.
- Installation of two or more machines to the same site on the same day is subject to a 10% discount.
- In cases where access is difficult, it may be necessary to employ the services of a specialist handling company. Any additional costs incurred will be chargeable to the customer.
- A cancellation charge will be incurred at the following rate for abortive installations: 24 Hours Before - 25% of Install Cost

Your Flexi Payment Plans

INTEREST-FREE PURCHASE PLANS

Spread the cost of your new machines and manage cash flow more effectively with our existing 12-month and our new 18- and 24-month Interest-Free Purchase Plans.

CONTRACT RENTAL PLANS

With flexible terms and competitive rates, our new Contract Rental Plans offer an alternative way to manage cash flow and help you choose the right machine for your business needs.

Click below for more information and T&Cs
(accessible via internet connection only)

Introducing our NEW flexible payment plans, developed to ensure you get the machine your business deserves – not just the one you can afford right now.

Owning the most innovative and energy efficient equipment on the market is now easier than ever. Our finance options are provided by Hobart UK directly – there is no third party involved – and as lenders rather than brokers, we're able to approve 99% of applications.

General Information

Here is some important information.

General Information

This price list is effective from 1st March 2018, and covers current prices applicable to Hobart products. All prices are in (£) pounds sterling. All packaging is free of charge and non-returnable.

Delivery

Prices listed are for deliveries accepted within 3 months from the receipt of order.

Orders delivered after this period will be subject to prices current at the time of delivery.

The machine price includes standard 3 day delivery to England, Scotland (mainland only) and Wales.

Alternative delivery arrangements can be made at an extra cost per item - as listed below.

Mainland Delivery Charges Within Working Hours (09:00-17:00 Mon to Fri)

3 Day Standard – FOC
Timed Delivery – £50
Overnight – £150

Island Delivery Charges

All Island deliveries, AB, PA, IV & KW postcodes or territories further North – POA

Please note: Delivery lead time to these addresses is a minimum of 3 days.

V.A.T.

All prices quoted in this price list are subject to V.A.T. at the rate applicable at the date of despatch.

Payment

According to the terms agreed with Hobart, the customer shall pay the Purchase Price within 30 days of the date of invoice.

Delivery, Shipment & Acceptance of Goods

Any product faults/defects/damages or shortages must be notified in writing within 3 working days of delivery. All deliveries must be checked on arrival.

Returns

All returns must be authorised by Hobart UK and will be subject to a 20% restocking charge.

Only returns of new and unused equipment, in original packaging, will be considered. This charge covers return transport, inspection, quality assurance checks and re-warehousing.

Condition of Equipment/Guarantee

Where equipment fails within 12 months from the date of delivery to the customer, Hobart UK undertakes to repair the equipment free of charge, provided that no alterations, additions or repairs have been made by any person not authorised by Hobart UK.

Hobart UK cannot be held responsible for the quality of your water supply and always recommends the use of water softeners or water conditioners at all times. Scale related damage is not covered under your warranty.

Replacement Parts/Guarantee

Replacement parts will be covered by a guarantee of six months.
